"A few nights ago I attended a republican meeting in the lower part of the seventh district. It was said by residents of the town to have been the largest political gathering ever held in the county. "The exodus from the democratic to republican party in the country districts is truly remarkable. It is not unusual to hear daily of from ten to a dozen in a township who voted for Bryan in 1896 who will sup-port McKinley and Roosevelt this year.

The Vote in the Cities.

The condition of affairs in the city districts has been very much misrepresented, as the vote one week from Tuesday will prove. It has been reported that the republicans would lose heavily in the cities. While there may be slight losses, they will be trifling compared with the tremendous gains in the country. The situation is daily improving in the cities, and I shall surprised if the vote does not hold up to

The German vote, which, early in the campaign was claimed to be very largely in favor of Bryan, is practically where it always was. Germans who voted the re-publican ticket in 1896 will vote the same ticket this fall. The imperialistic issue has not caught them. In fact, I know of communities where there will be a republican gain among the Germans. They say they are tired of the false prophecies of the

The Parade in Baltimore-Local Political Bodies Hear Issues Disenssed-Coming Meetings

Damp but not disconsolate, the District democrats who went over to Baltimore yesterday evening to attend the Bryan meeting returned after midnight. Some 300 or more of them, headed by Haley's Washington Band, had followed Marshal W. Cranch McIntire and his aids through muddy streets as part of the escort for Mr. Bryan from the Union depot to the Hotel Rennert and would have gladly waded along in his honor from the hotel to the music hall had not this later parade been called off on account of the weather. Nearly all went to hear Bryan, however, and deemed themselves well repaid for the discomforts they had borne.

Mr. Bryan was entertained at dinner by Chairman Vandiver of the Maryland state central committee, and among the guests were Messrs. James L. Norris, William F. Hart and Wilton J. Lambert of this city and Hattersley W. Talbott, Spencer C. Jones and Albert J. Almoney of Rockville. Southern Republicans to Organize. All southern republicans residing in the

District of Columbia have been invited to attend a meeting at G. A. R. Hall, Pennsylvania avenue opposite new Willard's Hotel, tomorrow night, when a permanent southern republican association will be organized. Officers, including a vice president from each of the southern states, will be elected. The following state associa-tions have been requested to attend this mass meeting in a body: Maryland, West Virginia, North Carolina, Kentucky and virginia, North Carolina, Kentucky and Virginia. Speakers who are expected to address the meeting include Ashley M. Gould of Maryland, John W. Langley of Kentucky, Roscoe Mitchell of South Carolina and James G. Bailey of Kentucky.

Short speeches were made by vis-iting republicans, in which the election of McKinley and Roosevelt was strongly ad-vocated. J. H. A very interesting report upon the conditions in Dawson City and the Yukon district of Alaska has been furnished the State Department by United States Consul Mc-

ho appearance of a mining town, but seems a thriving commercial center, with rows of splendidly equipped stores, substantial wharves and warehouses, good hotels and streets lighted with electricity. Electric railroads are promised by New Year.

"There are fewer houses in Dawson for rent at the present time than since it was a tented field, notwithstanding the fact that over \$500,000 have been spent this summer in new buildings. Many new homes are being built-good, substantial frame build-ings. Public schools have been opened and are well attended. About October 1 we will have direct communication by telegraph via Vancouver and Victoria, British Columbia, thus avoiding the delay by steamers carry-ing the message from Seattle or Vancouver to Skagway.
"Dawson is crowded just now, more com-

thereafter all claims not sold will be declared open for location.

"The output of gold has been increasing, in spite of the fact that the average values of the gravels worked have been steadily declining, the richest mines having been worked first. But meantime the cost of the people will be in November. President McKinley will be re-elected by a working has decreased and enables proper-ties to be profitably worked now which would not have yielded gains two years ago. There should be a continued output of from \$15,000,000 to \$20,000,000 worth of gold

annually for many years to come if the ex-penses of working are further reduced. "There can be no doubt that gambling has done very much toward retarding the development of the country.

"As a large part of the ground worked must be thawed, generally with steam, immense quantities of fuel are required. The hills in the neighborhood of the mines have been denuded of forests, and the cost of fuel is increasing. From \$12, to \$25 per cord. fuel is increasing. From \$12 to \$25 per cord is now paid for wood. The remedy for this difficulty will be in building a railroad to the principal creeks, to convey wood and

coal from Dawson to the mines. "Considerable capital has come in from Considerable capital has come in from England in a tentative way—probably \$3,000,000 or \$4,000,000—and the representatives have stated that their people were prepared to put in any quantity that the conditions would justify. Their experience of the past two years, however, has been discouraging and a number of them speak of quitting entirely unless changes are brought about that will enable them to handle large areas of tirely unless changes are

"Valuable placer gold claims are reported to have been located in the Stewart river mining district, about 100 miles from Dawson, and a stampede has followed to the scene of the finds."

Claims of Minnesota Democrats Con-

REPUBLICANS TO ELECT GOVERNOR

Views of National Committeeman

ISSUES THAT ARE DISCUSSED

MINNEAPOLIS, Minn., October 22, 1900. In a talk today with a Star correspondent National Committeeman T. H. Shevlin, one of the leading republicans of the northwest, was asked as to the claims of the democrats that, while it is generally conceded the state will give its electoral vote for McKinley, they attest their confidence of carrying the state ticket.

Mr. Shevelin did not countenance these claims and declared them without substantial basis.

"As to the result of the coming election in Minnesota," he said, "I predict the success of our national ticket by a majority of 50,000 to 60,00. The republicans of Minnesota will elect their entire congressional delegation and without doubt a governor. At present we have a populistic governor, and we are making a great effort to redeem the state and bring her under the banner of the republican party, where she belongs. "In regard to the Minnesota gold demo-

crats, my opinion is that at least 60 per cent of them will vote the republican ticket UNDISMAYED BY WEATHER NO LONGER A MINING CITY

The Germans are disaffected to a slight extent on account of imperialism, or misled by a misuse of the term and a misappression of the program of the meaning but we are doing hension as to its meaning, but we are doing

everything we can to correct this and to prevent our Philippine policy from being unjustly criticised or seen in a false light. Free Silver Dead. "The free silver issue is practically dead in this state. The democratic party as represented by Bryan stands for ruin. Bryan bossism and domination will eventually result in a reorganization of the democratic party and the turning it back into the

hands of good, honest and patriotic demo-

crats.
"The sentiment in favor of expansion is very greatly in the majority in our state. Personally I am very much in favor of it. Department by United States Consul Mc-Cook at Dawson City.

"Dawson today," he says, "presents a marked contrast to the Dawson of 1808. Then no one, except possibly the judges on the bench, wore a white shirt. The town was thronged with miners, pack on back, prospecting for gold. The streets were veritable mud holes. Now people dress much as they do in the cities of the United States; a man with a pack on his back is an unusual sight, and you can walk the town over with polished shoes and not have them special reference at this time to co "To one just coming in Dawson presents on appearance of a mining town but seems

Minnesotans for the President. "I think that President McKinley has been a wise and conservative executive; I believe that he has the confidence and will receive the support of all patriotic and right-thinking people at this time.

"As to the dominant issues of the cam paign here, on the one side it is prosperity and expansion, with the other side trying to delude the people into thinking that the republican party is not working for the best interests of the country and that expansion is imperialism "I consider that for the past four years

inaugurated an era of unparalleled prosperity and thereby has richly earned and should receive a victorious indersement at the poils in November, as I believe it will. "The government at Ottawa, it is reported, will offer for sale at public auction in Dawson every claim that has reverted to it by lapse or otherwise, and thirty days thereafter all claims not sold will be declared open for location."

"There has never been a time in the history of this country as a whole when it tory of this country as a whole when it is tory of the whole when it is to tory of the whole when it is tory of the whole when it is tory of the whole when it is to tory of the whole when it is to tory of the whole when it is to tory of the whole when it is tory of the whole when it is to tory of the whole when i

greater electoral vote than he received four years ago, with enormous majorities in the states which he will carry, and we will con tinue to have a majority in Congress. The solid south confronting us is of course a very serious handleap, but even with that there is no doubt in my mind as to the re-sult."

The election of officers of the third-year class (junior), medical school of Columblan University, was held last evening The result of the election was as follows President, Chas. W. Parscells, New York; vice president, Richard M. Little, Ohid; secretary-treasurer, H. F. Pipes, District of Columbia.

League and Society Officers. The new officers of McKendree Epworth

League were installed at the regular service Sunday evening by the pastor, Dr. Naylor. They are: President, S. S. Culbertson; first vice president, G. F. Johnson; second vice president, Mr. S. S. Culbertson; third president, Mrs. Dora M. Sagendorf: vice president, Mrs. Dora M. Sagendorf; fourth vice president, Miss Nellie Davis; secretary, Walter P. Noonan; treasurer, Robert M. Harper; superintendent of junior league, Miss Belle Neff. The Adelphian Society of McKendree

Hanging White House Draperles The interior of the White House is undergoing some repairs. The winter draperies are being hung, so that when Mrs. McKin ley returns after the election she will find everything in proper place for the winter season. The main stairway is having new stringers put in, there having been some fear that the stairway was becoming weak and possibly dangerous.

Marshal Hamilton of the Baltimore police force has asked the local police to locate Harry G. Callahan, thirty-eight years old, a sheet-iron worker. His wife, who lives in Baltimore, has been corresponding with him through the general delivery of the city post office. Her last letter was not called for, and his wife is extremely anxious about him.

WheatandCotton

Are commodities and their prices are regulated by the law of supply and demand. They are not af-fected by the exigencies of the political situation, nor by labor disturbances, nor by an unsettled monetary condition. This year this situation in each is practically the same; our crops of each are much smaller than usual, while European stocks are practically nothing, while Old World crops are small. When our crops are small and European crops are large prices

but when both Old World and New World crops are small, prices must advance and the U. S. benefits more largely than does any other country, because it raises more of both wheat and cotton. That, in a nutshell, is the situation this year; prices seem high (in comparison with other years), but are relatively low, when the crop situation is considered from a world standpoint. We expect to see still higher prices for both wheat and cotton, and should be pleased to receive orders to buy or sell either on a margin. Get our free book.
